AT THE BOX LUNCHEON

TWO HUNDRED UNIVERSALIST WOMEN MEET IN THE CHURCH OF THE ETERNAL HOPE.

A MOST INTERESTING PROGRAMME FOLLOWED BY AN ANNUAL FEAST-ELECTION

About two hundred women were seen yesterday wending their way toward the Church of the Eternal Hope, on West Eighty-first-st. It was the last meeting of the season of the Universalist Woman's Alliance of the Metropolitan District. The meeting was opened at 11 o'clock by Mrs. Charles H. Eaton, the president, and the annual reports of officers were read. The literary exercises were under the direction

of Mrs. J. Pierce, chairman, who after extending a welcome in behalf of the women of the church, introduced the speakers.

A paper on "Religious News," read by Mrs. W. S. Crowe, gave an admirable account of the work accomplished by the denomination during the last year, especially the increase of church membership in the Metropolitan District. A pleasant interlude in the exercises was a solo given by Miss Chapman, of the church choir.

'The Life of Women in Japan" was the subject for consideration, and Miss Georgiana Roberts, who has travelled in Japan and studied the characteristics of the people, gave a charming talk. She alluded to the three foreign invasions of re ligion that had influenced Japanese character. and how the tenets of these various beliefs had moulded the life of the Japanese woman. "The first impression these women produce," said the speaker, "is that of daintiness and childlike simplicity, but upon further acquaintance strength of character is discerned under their marvellous com-

A graphic account was given of the restrictions placed upon the Japanese woman socially, her absolute obedience to her parents, her busband and her son, if he becomes the head of the family. The utter disregard of conjugal love, the devotion to the family name and prestige and the simple pleasures of the wife and mother were all depicted. Miss Roberts believes that under the dominating influence of the Occident, whereby education among the Japanese women will become more general, they will rise above their present ive condition

The Japanese atmosphere of the day was still

The Japanese atmosphere of the day was still further carried out by a recitation given by Miss Charlotte Sulley. "O Lark of the Summer Morning." The translation of this Japanese song was followed by a graceful poem written for the little people of Japan, entitled "Little Nurse Firefly, describing the sad results that follow if pleasure comes before duty.

After the social hour the luncheon proved to be not the least attractive feature of the pleasant day. In the afternoon the annual election of officers was held, and the following women will preside over the Alliance during the coming year:

Mrs. E. Sherman, president; Mrs. W. S. Crowe, first vice-president; Mrs. Charles Vall, second vice-president; Mrs. H. R. Rose, third vice-president; Mrs. H. R. Rose, third vice-president; Mrs. A. J. Newbury, corresponding secretary; Mrs. A. J. Newbury, treasurer.

OFFICE GIRLS FOR THE CITY.

ONE HUNDRED AND TWO APPLICANTS EXAMINED

Advocates of women's rights would have been gratified yesterday morning had they visited the fourth floor of the Criminal Court Building and seen 120 girls waiting to take the examination for places as office girls in the employ of the city. The city is about to try the experiment of having office girls in the various departments. It is not known whether there will be one in the Mayor's

The girls who appeared were all under eighteen years old, as provided by the Civil Service reg-ulations. One hundred and two were allowed to take the examination, in arithmetic, speiling, dictation, letter-writing and handwriting. The girls will have exactly the same standing as the office boys, and they may receive the maximum salary, 325 a month. Many of the girls who appeared were bright and pretty. All were neatly dressed, and some it must be said, were chewing gum. They were examined in two sections, as the Civil Service room could hold only part of them at a time.

WILL WELCOME THE RALEIGH.

Among the many who are anxiously waiting to-Raleigh, as she steams into New-York Harbor, is Mrs. Coghlan, wife of the gallant captain. Mrs. Coghlan is a typical American naval officer's wife -highly accomplished, possessed of rare conversa-tional gifts and charming manners. Before her marriage she was Miss Julia Barbour, of Terre Haute, Ind. She was an orphan and attending school at a convent when she first met the young naval officer. Soon after their marriage Captain Coghlan was ordered to the European station, on board the Richmond, and the young bride went with him. When he was relieved and ordered home two years were spent in Washington while Bureau of the Navy Department.

Mrs. Coghlan has usually followed her husband when ordered to sea. She has cruised all around the world after him or preceding him, for the regulations of the Navy do not permit the wives of ations of the Navy do not permit the wives of naval officers to live aboard skip. She has been up the Mediterranean and on the China, European and South American stations. While her husband was at Manila she could not well be in his immediate vicinity, so she stayed in Paris with Mrs. Custer. Mrs. Coghlan returned to this country a short time ago, and has been visiting friends since. The Coghlans have but one child, a son, Graham Coghlan, who is twenty-one years old.

Members of the West End Woman's Republican Club and their guests will sall down the bay today to welcome the Raleigh. They go in a tug which has been chartered for the occasion.

MRS. FANNIE S. BARNES RESIGNS. At the last regular meeting of the Mathers' Contress of the City of New-York, held at St. Stephen's Chapel. West Forty-sixth-st., a letter from Mrs. Fannie Schwedler Barnes was received, tendering her resignation as president and member. A motion was made, seconded and carried that her resignation be accepted and announced publicly.

The society then elected Mrs. Albert Houstetter president and Mrs. G. S. Oldnixon vice-president A vote of thanks from members and officers was also tendered Mrs. Parnes for faithful services.

AN APPEAL FOR PURE JOURNALISM IS

SENT TO PAPERS AND CLUBS. At the international congress of press clubs now in session in Baltimore, the Press Committee of the religious Society of Friends made an especial appeal. This took the form of a plea for purer journalism, which subject has been agitated by the Friends in times past, and is reported upon in the records of their last yearly meeting. At that meeting a special greeting was made to the press. Isabelia Tyson, chairman on behalf of the committee, in her address to editors and journalists

We bow in gratitude before the grand results which through your efforts have been wrought. That which we crave is, that the potent educational influence which you exert, may be so framed that far above all evil good must reign; that in the daily issues which you send into our homes, from offices so full of talent and of varied gifts, you will so sift the items of news, that in their telling the debasing influences may be left behind, without the loss of that which has its value as a part of the great history of the times. The gracious reception which our former appeals have met leads us to venture once again to send this friendly greeting to the press.

This letter was inclosed in the annual report of

At the Mothers' Congress, held in Washington, two delegates represented the Friends, and read the address, which was cordially received.

Manuscript letters were sent to 520 women's meetings, from many of which gratifying replies were received. The same kind of letter was sent to ministers of all the denominations, and it was asked that the subject of purifying journalism should be brought before the congregations.

GEOGRAPHY AND HISTORY.

HOW THEY ARE TAUGHT IN THE SCHOOLS EXPLAINED BY CLARENCE E. MELENEY.

At the conference of the Public Education Association held yesterday afternoon in the Berkeiey Lyceum, No. 19 West Forty-fourth-st., Clarence E. Meleney, Borough Associate Superintendent, ex-plained the method of teaching geography and history in the schools.

He said that United States history is a course that comes in connection with world history, and the relation of this country to the whole world and of the world in general to the United States is one of the themes especially treated. Certain epochs of general history are taken in turn, and ach grade has an epoch round which the study of both geography and history is made to revolve. Grade No. 4A the mythological and legendary

eras are taken up and their relation to each other demonstrated. Following this, the history of coun-tries bordering the Mediterranean Sea is considered, which gives place to the study of Western Europe, then of America. North and South; of the Eastern colonies and Spanish colonies and the balance of empire in the New World, culminating with the Revolution of the North American Colo-

cific slopes and river watersheds are considered of much importance. The types of people that de-

much importance. The types of people that developed different industries in different climates is another subject accentuated, and the phenomena of winds and ocean currents are taken up in the study of the commercial industries of various localities.

In all the grades the teachers may choose the textbooks, selecting from the number recommended or approved by the Board. These are reinforced by books of travel and history which the teachers call for from the public libraries. These books the pupils may look over at school, or get for themselves from their own local libraries.

One teacher showed an especially original way of teaching Grecian history. In order to imbue the pupils with the true spirit of the Greek patriot she had the class read and commit to memory Byron's "Odes to Greece." This fired their ambition to know well the country of heroic deeds, and the study of the history followed easily.

ONCE A WEEK CLUB MEETING. Mrs. Jeannette H. Walworth entertained the

Once a Week Club at its last meeting. The ses was held at No. 202 West One-hundred-and-thirdst., and the "Mormon Question" was the subject for the afternoon. Mrs. Walworth read selected chapters from her new book, which is a romance dealing with the Mormon question. The discussion that followed the paper and the readings was long and animated.

SOUVENIR SOFA PILLOW. At the Easter bazaar held at Plymouth Church

recently many interesting things were offered for sale, but none attracted more attention than the cabinet sofa pillow. Miss Lucy Haley, of Brooklyn, when visiting in Washington this spring, per-suaded the members of the Cabinet and some of the war heroes to write their signatures on the silk which is used as the covering of the pillow. These signatures have been worked over, and the pillow is bordered with red, white and blue ruffles.

Woman's Club, and her successor, who is to be chosen to-day, will almost certainly be Mrs. James D. Whitmore Mrs. Whitmore is an active member of the home department of the club, and is now president of the Domestic Science Association president of the Domestic Science Association of Colorado. Her friends say she is an excellent presiding officer and has much executive ability. She is a tail and stately woman, with a fair complexion, blue eyes and light hair. She is a sister of Mrs. J. B. Grant, who was president of the biennial local board. Mrs. Whitmore has long been an officer in the Daughters of the Revolution.

COOPER UNION SKETCH MART.

A sketch mart was held at Cooper Union last night by the Alumnæ and Students' Association of the Woman's Art School. The rooms were crowded with visitors from 7 to 10 o'clock. Sketches, pictures of still life, properties, casts, photographs of famous paintings and decorative work were offered for sale.

Sketches were shown which were the work of F. S. Church, R. Swain Gifford, Willard Metcalf, H. Twachtman, Robert Reid, Cecilia Beaux, Howard Chandler Christy, Walter Appleton Clark A fortune-telling booth was an attractive feature

of the evening, and also the refreshment table. The proceeds of the affair will be devoted to the fund for the sketch and combination classes, and for the luncheon-room, these having been maintained in the Woman's Art School for the last year by the Alumnæ and Students' Association.
